### **G. Brief Explanation of Local Effort**

There is minimal local effort on this project due to understandable requirements to have a certified bus mechanic perform qualified repairs for the safety of our students. However, having a parent with mechanical knowledge pre-assess and provide information is a way to save the district money. There is often a misconception that all school districts have unlimited budgets, therefore, it is not unheard of that businesses will charge a district for additional, unnecessary work. With prior knowledge, it will help eliminate someone from taking advantage and overcharging. Additionally, the community is eager to help when they know there is a need. It helps bond the school district with the community when they understand a need and can contribute at the Fall Carnival.
