Thank You for your help!!! I called the other day and have had to revise the proposal - JUST ADDED A FEW WORDS. This is the REAP plan that we need the commissioners to sign at Mondays meeting. Once again thank you for your time. Call if I need to do anything else. 918-208-1207 or at school 918-786-4902

Thank you for your time. I hope this is where I need to get this action plan. I am applying for the Grand Gateway Grant out of Big Cabin. I did not know if the commissioner needs to see the grant proposal also. Please let me know if I need to send tee grant application as well. Once again thank you for your time and have a blessed day.

G. Brief Explanation of Local Effort

There is minimal local effort on this project due to understandable requirements to have a secure facility. We have acquired local carpenter / parent commitment to help with the remodel. It is important that we work to ensure the safety of our children. However, having our society aware of this need and eventual desires from other entities, we are confident that we will be receiving in-kind labor or advice from local authorities. We will be looking to make sure we collect all the information and donations as we press forward so we can save the district money. There is often a misconception that all school districts have unlimited budgets, therefore, it is not unheard of that businesses will charge a district for additional, unnecessary work. With prior knowledge, it will help eliminate someone from taking advantage and overcharging. We want the best outcome for our students and community. Additionally, the community is eager to help when they know there is a need. We are sure that some of the cost of our project will come under this budget. It helps bond the school district with the community when they understand a need and can contribute.

H. Brief description of Project

The district is in dire need of security. We want our students to have a real sense of security and know that the abilities of our school will be adequate to protect our students. We need to have equal access to all areas of our campus, but at the same time it needs to be safe. We will be installing all new door knobs that are ADA compliant and for security reasons they will automatically lock after use. In today's society we need to protect our students. The changes we propose for this REAP action plan and application will be campus wide and make our campus secure. We are also in need of more water fountains that are ADA compliant and construction of bathrooms / remodeling to adhere to ADA compliance. We are in need of better plumbing and access to water throughout the school day.
